Enhancing your applications with Ecom ...

- Over 20 years experience in flavour enhancement
- Onsite manufacturing, blending and application development
- Small enough to care – big enough to be a reliable partner

Ecom has been actively involved with flavour enhancement projects since the 1980s, and has built a national business base of expertise, clients and representation.

From our Toronto facility we have the ability to develop exactly the product you need for your application, whether you require samples and advice for your bench work, or wish to work with our staff in our lab. We have the ability to source, blend and package flavour enhancement products for your exact needs.

Let us work with you on your next project.
